

Name : SUBHI ZEYAD SUBHI GHANEM

Nationality : Jordan Referred by : SELF

DOB : 20-02-1980 MR No : 735301 Validated : 23-02-2022 21:49

Gender : MALE Lab No : 142205403057 Reported : 23-02-2022 21:49

ID No. (Emirates ID/Passport) : Q113094

Laboratory Report

Microbiology

Test Description	Result	Units	Reference Range
RT PCR For Covid -19 (Sample Type : Nasopharyngeal swab) Note: Limitation:Paradoxical results can be due to inherent PCR inhibitors in specimen			Sampled:23-02-2022 10:50 Interpretation: DETECTED:Indicates the RNA from SARS-CoV-2 was detected and patient is considered as infected. NOT DETECTED: Indicates SARS CoV2 not present in specimen above the limit of detection. INCONCLUSIVE: Indicates that not all of the testing targets were detected, This could be due to the inconsistent amplification of all of the required SARS-CoV-2 components from the specimen submitted. If clinically indicated, recommended to give repeat sample.
SARS CoV-2 (COVID-19) Methodology: RT PCR	DETECTED
